

ABOUT

# GREGSON L. HAYNES

Gregson Haynes is a highly accomplished Logistics Management Specialist with a remarkable career spanning various roles in the military and civilian sectors. Currently serving as the Commander Fleet Readiness Centers (COMFRC) in Maryland, Gregson oversees the operational readiness of fleet centers, ensuring the nation's naval assets are prepared for any challenge. With an impressive background that includes key positions at General Dynamics Information Technology and Gryphon Technologies, Inc., he has consistently demonstrated his mastery of logistics, program management, and project coordination. Gregson's seven-year tenure in the US Navy, where he held roles such as Maintenance Master Chief and Command Master Chief,

highlights his dedication to maintaining aircraft and providing global Human Resources support. His academic achievements, including a Bachelor of Science in Operations Management and Supervision, further underscore his commitment to excellence and leadership in the field of logistics and management.

In addition to his military and civilian accomplishments, Gregson's educational background and diverse experience have equipped him with a unique skill set that sets him apart in the world of logistics and management. His role as the Commander Fleet Readiness Centers (COMFRC) reflects his exceptional leadership and strategic acumen, making him a valuable asset to any organization fortunate enough to have him on board.
